

# BIO-ENZYME

## DRAIN TREATMENT

BIO-ENZYME is a live micro-organism that devours and neutralizes kitchen wastes such as grease and fats in drains and traps

Helps remove build-up and helps stop clogs before they start.

Safe for plumbing.

Programmable auto dispensing system provided on loan. Feeds chemicals into drains and grease traps to break up grease and eliminate odors.

Service consists of setting up pump, changing squeeze tubes and batteries and delivering product as needed.
